Testing fundamental physics with CMB

The Planck mission was launched successfully in May last year. I will give a summary of the scientific aims of the Planck mission and a brief overview of its current status. I will also place the Planck mission in context with ground and suborbital CMB experiments and other probes of early universe cosmology.

Wednesday, 2nd June 2010, 10:30 h, Room 348 / 349, Theresienstr. 37, LMU
