

# Sommerfeld Theory Colloquium

Prof. Hans Peter Nilles

**University of Bonn**

## Mirage Mediation

String theory moduli stabilization with fluxes and gaugino condensates suggests a novel supersymmetry breaking scenario: mirage mediation. We present this scheme and explain its consequences for particle physics and cosmology.

**Wednesday, 8<sup>th</sup> February 06, 11.15 h , Room 348 / 349, Theresienstr. 37 / III**

Prof. V. Mukhanov
